Flash Flood

An elderly couple was returning to their home and found a low water crossing on Rush Creek flooded. They decided not to try and cross in their truck. They got out of the truck and attempted to cross the creek on foot at an old road bed that crossed the creek nearby. The water was too swift and they were swept downstream. The 88 year old man survived, but his 87 year old wife did no.

### ARKANSAS, Central and North Central

#### Baxter County

3 S Mountain Home      12      2245CST      0      0      Flash Flood  
13      0145CST

*In the picture: Twenty four hour rainfall amounts across Arkansas as of 6 am CST on 01/13/2005. There was enough rain to cause flash flooding across northern sections of the state during the evening of the 12th, and in the southern counties during the early morning hours of the 13th. Heavy rains produced flash flooding south of Mountain Home. Several county roads were closed for a few hours due to high water.*

#### Johnson County

Countywide      12      2245CST      0      0      Flash Flood  
13      0145CST

#### Marion County
